May 14th & 15th in Gillette, WY

"Bringing maintenance professionals together since 1974"

The RMMMA's mission is to bring maintenance professionals together to share ideas, best practices and promote a strong support network that will help members solve new and challenging problems while providing a unique training opportunity. Meetings are held bi-annually in May and December. Each meeting features two separate agendas geared specifically toward mobile maintenance or plant maintenance professionals. The next RMMMA meeting will take place May 14th and 15th, at the Gillette College Technical Education Center in Gillette, WY. The meeting begins on Wednesday morning with educational sessions presented the Rocky Mountain Suppliers Group (RMSG) demonstrating the latest mobile equipment and plant technology. The afternoon session will be comprised of hands-on training and live demonstrations. Don't miss the Meet and Greet Reception with RMSG members Wednesday evening from 4 – 6 pm. On Thursday, our members attend educational sessions in the morning with more hands-on training and demonstrations in the afternoon at the RMSG Expo. The meeting concludes on Thursday evening with a cocktail hour at 6 pm and the Awards Banquet at 7 pm.

The information presented at RMMMA meetings is specifically geared toward ensuring that your maintenance program is keeping up with the latest data on new equipment and technology while avoiding costly mistakes or struggling with issues that other members have already resolved. As an example, a maintenance supervisor at a mine in North Dakota explained how his mechanics received invaluable information from RMMMA when his mine purchased a new fleet of haul trucks that no one had any experience working on. "Other RMMMA members had experience with large fleets of these trucks and their knowledge about how to make them run and their willingness to share it, made it extremely worthwhile for our people to attend RMMMA."

There are a lot of good maintenance products out there, especially if you ask the vendors who sell them, but RMMMA allows you to bypass the sales pitch and talk directly to the end users who will give you the good, bad and the ugly. Attending RMMMA can help you make more informed purchasing decisions and give you more bang for your maintenance buck. In today's fast paced world, it is absolutely critical for maintenance professionals to stay up to date on proven products and services.

Attending RMMMA is very beneficial for your key mechanics; the folks you depend on to get things done and keep everyone else on track. RMMMA can also be extremely valuable for maintenance managers and supervisors as well as purchasing agents. The RMMMA has built an outstanding network of maintenance professionals, members can pick up the phone or shoot an email to a fellow RMMMA member any time day or night and more often than not, they're provided with a solution or some advice about what to do or where to go for more information or help. Participating in RMMMA will definitely add value to your operation. See you on May 14th at the Tech Center in Gillette, WY!

SUPPORTING THE ROCKY MOUNTAIN MASTER MECHANICS ASSOCIATION

The Rocky Mountain Suppliers Group (RMSG) is a nonprofit organization formed by companies, in and around the Rocky Mountain Region, providing goods and services to the mining, energy, and construction industries. The RMSG is the vendor affiliate of the Rocky Mountain Master Mechanics Association (RMMMA), a network of maintenance professionals that have been gathering since 1974. The RMSG also provides three annual scholarships to the college students in the Rocky Mountain Region who are attending a college or vocational program in pursuit of a career in the mining, energy or construction sectors.

Membership in the RMSG provides exclusive access to the bi-annual RMMMA meetings, which attract maintenance professionals from across the Rocky Mountain region to learn about the latest in maintenance products, services, solutions, and technology. The next RMSG/RMMMA meeting will be held May 14th and 15th at the Gillette College Technical Education Center in Gillette, Wyoming. On Wednesday and Thursday, RMMMA members attend full day sessions with presentations provided exclusively by members of the RMSG, offering educational information and training on the latest products, services and technologies related to mobile equipment and/or processing plant equipment. Don't miss the members-only, Meet and Greet Reception, on Wednesday evening from 4 – 6 pm, where RMSG members can network with maintenance professionals while showcasing their company's latest products and services. On Thursday afternoon, your company has the opportunity to showcase hands-on training and live product demonstrations at the RMSG Expo. The meeting wraps up on Thursday evening with an Awards Banquet hosted by the RMSG, which provides yet another chance for our members to network directly with the leading mine maintenance professionals from across the Rocky Mountains. During the meeting, RMSG members also have the opportunity to sponsor session breaks or lunch, giving them a one-on-one opportunity to interface with the RMMMA members.

RMSG membership is open to any company that supplies materials, equipment, and/or services to the mining, energy, and/or construction sectors in the western half of the US. In addition to the many benefits listed above, being a member of the RMSG demonstrates your company's commitment to supporting the industries and maintenance professionals who are the backbone of what makes this country the greatest nation in the world! We'll see you on May 14th at the Gillette College Technical Education Center in Gillette, Wyoming!
